The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/777,562	Applicant(s) LOVEDAY ET AL.	
	Examiner William K. Cheung	Art Unit 1796	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Request for Continued Examination

1. The request filed on October 12, 2007 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/777,562 is acceptable and a RCE has been established. An action on the RCE follows.
2. The examiner acknowledges the receipt of the amendment filed October 12, 2007. Claims 2-4, 9, 16-45 have been cancelled, and new claim 46 has been added. Claims 1, 5-8, 10-15, 46 are pending.
3. In view of the amendment filed October 12, 2007, the rejection of claims 1-15 under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period, is withdrawn.
4. In view of the amendment filed October 12, 2007, the rejection of claims 1-15 under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee, is withdrawn.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 5-8, 10-15, 46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 (line 12), claim 46 (line 3), the recited chemical structure are considered indefinite. How can the recited "L element" possesses four bonds when Y and Z possess only three bonds. As recited in claim 1, L, Y, and Z is a Group 15 element. Is there any thing missing, a charge maybe?

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

8. Claims 1, 5-8, 10-15, 46 are rejected under 35 U.S.C. 102(b) as being anticipated by Sugimura et al. (JP 10-330412), English translated.

Sugimura et al. (page 4, claim 1) disclose a catalyst substantially identical to the catalyst as claimed. Further, Sugimura et al. (page 66, 0199) disclose a polymerization process comprising olefins and the catalyst described. Sugimura et al. (page 66, 0200) disclose that the polymerization process is a solution or suspension polymerization process. Since Sugimura et al. contain all the features of claims 1, 5-8, 10-15, 46, claims 1, 5-8, 10-15, 46 are anticipated. In view of the 112 rejection set forth, the instant rejection is proper.

9. Claims 1, 5-8, 10-15, 46 are rejected under 35 U.S.C. 102(b) as being anticipated by Sugimura et al. (JP 10-330416).

Sugimura et al. (page 9, 0067) disclose a catalyst substantially identical to the catalyst as claimed. Further, Sugimura et al. (page 28, 0172) disclose that the polymerization process is a solution or suspension polymerization process. Since Sugimura et al. contain all the features of claims 1-15, claims 1-15 are anticipated. In view of the 112 rejection set forth, the instant rejection is proper.

10. Claims 1, 5-8, 10-15, 46 are rejected under 35 U.S.C. 102(b) as being anticipated by Imuta et al. (WO 98/34961).

Imuta et al. (abstract) disclose an olefin polymerization process comprising a catalyst that is substantially identical to the catalyst as claimed. Further, Imuta et al. (abstract) disclose that the polymerization process is a slurry process with aliphatic or alicyclic hydrocarbon. Since Imuta et al. contain all the features of claims 1, 5-8, 10-15, 46, claims 1, 5-8, 10-15, 46 are anticipated. In view of the 112 rejection set forth, the instant rejection is proper.

11. Claims 1, 5-8, 10-15, 46 are rejected under 35 U.S.C. 102(e) as being anticipated by Imuta et al. (US 6,255,419).

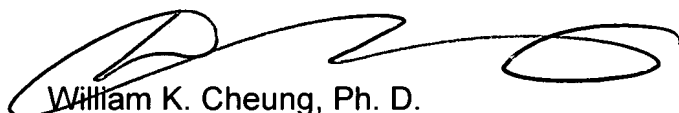

Imuta et al. (abstract) disclose an olefin polymerization process comprising a catalyst that is substantially identical to the catalyst as claimed. Further, Imuta et al. (col. 80, line 27-32) disclose that the polymerization process is either a liquid phase polymerization process including solution polymerization and suspension polymerization, or gas phase polymerization. Since Imuta et al. contain all the features of claims 1, 5-8, 10-15, 46, claims 1, 5-8, 10-15, 46 are anticipated. In view of the 112 rejection set forth, the instant rejection is proper.
